

State of Idaho Certificate for the
Microbiological Analysis
of
Drinking Water
LabCor, Inc.
7619 6th Ave NW
Seattle, WA 98117
EPA: WA00255

Based on the most recent assessment, proficiency testing results and compliance with the Fifth Edition of the "Manual for the Certification of Laboratories Analyzing Drinking Water" Supplement 2 with addendums and IDAPA 16.02.13, LabCor, Inc. is granted reciprocity with the State of Idaho for environmental monitoring under the Safe Drinking Water Act and is authorized to perform the following methods for the analytes listed.

Method	Analytes
EPA Method 1623	<i>Cryptosporidium and Giardia</i>

This certification is in effect until January 31st, 2019 as long as LabCor, Inc. maintains Certification by the State of Washington and the successful on-going compliance with the NELAC Standards.
